Electors had been giving physic to move his bowels, but they had not reven for twenty-four hours. When treatment as shown in the Oxygener book was applied, they moved very freely, after which he went to sleep. After support the doctor from Billimes came in, and as the young man was awealing and his temperature down to 1904, he gave nothing but alceping powder and applied turpentine over the howels. Mr. Flanagan told me he could see the good work of the Currenor all night. I know it will do the work, if ther will continue it. The roung man has had the favor for two weeks now, and he lim't as weak as Mr. Anatin was seen we applied the Currenor in his case of maintal favor, but he is quite thin. Very respectfully.
